

# Aggregates & Finishes for Spun-Cast Concrete Poles

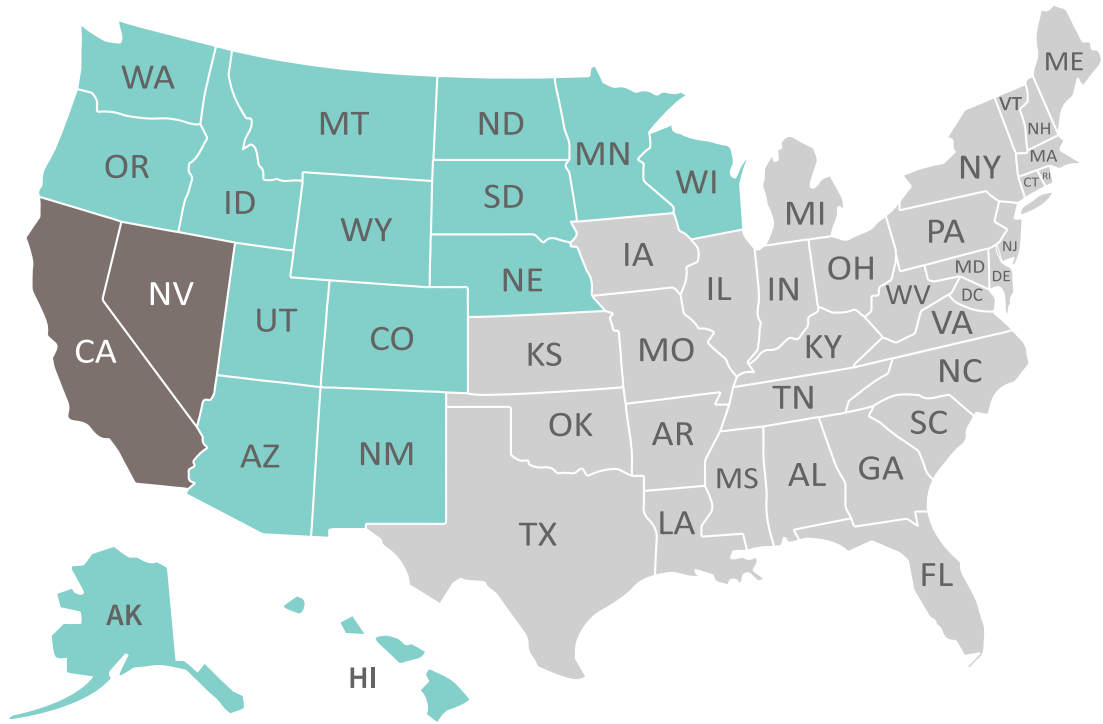

We offer a variety of pole designs and styles in an assortment of shapes, colors, textures and finishes that are perfect for any application or environment. Whatever your outdoor lighting needs, we have a decorative, prestressed, spun-cast concrete pole that provides enduring beauty and performance for many years.

**Only a small sampling is shown.** Standard, pre-formulated, and custom aggregate colors are available. We offer Amershield™, a premium graffiti-resistant coating, plus an assortment of durable sealers and protectants that further enhance colors, protect the concrete surface, and aid in the removal of graffiti. Please contact your Ameron representative for a list of additional pre-formulated colors and finishes currently available.

Due to natural variation in the colors of the aggregates and concrete, colors of actual batches of concrete may differ from the samples shown in this brochure.
