

# Delivery Services

Reduce your lighting pole installation costs and protect your investment.

## Simplify your scheduling and save money

When you use our delivery and erection service, we can guarantee 100% warranty compliance on the installation of your Ameron™ poles. All products will be handled correctly before delivery, and inspected again at the jobsite after work is completed.

Our delivery services save you money. Whether you contract these services from another vendor, or you schedule them separately with multiple vendors, it will cost as much as 25% more than our delivery services. Customized scheduling gives you more control over your delivery, allowing you to reallocate your resources to where they deliver the most value.

### Quality and Experience

Our delivery services team has been delivering and erecting lighting poles for more than 40 years. Our experienced team will deliver and erect your poles on time and on budget.

We offer **four delivery options** tailored to fit your needs:

#### 1. Delivery

Delivery to the destination of your choice\*

#### 2. Delivery and Unload

- Includes **delivery** plus:
- Crane and operator to offload poles to your ground crew
  - All proper dunnage material
  - Final product quality inspection

#### 3. Delivery, Unload and Manpower

- Includes everything from **delivery and unload**, plus:
- Additional manpower to handle all offloading and stockpiling of poles

#### 4. Delivery and Erection (D & E) - [Best Value]

- Delivery to jobsite
- Crane operator stands and erects poles into position for installation
- Final onsite quality inspection after installation
- Warranty compliance

\*Delivery site must be safely accessible for the NOV truck.
